Rishi Shrivastav

Full Stack Web Developer

Surat, Gujarat | 6354839615 | rishishrivastav28@gmail.com | LinkedIn | GitHub | Portfolio

ABOUT ME

Dedicated Full Stack Web Developer with 1+ year of professional experience delivering production-ready web applications and REST APIs. Proven expertise in React.js, Next.js, Node.js, and MongoDB, with hands-on experience building real-world e-commerce platforms, fintech systems, admin dashboards, real-time systems using Socket.io, and secure payment integrations (Razorpay & Stripe). Passionate about writing clean, maintainable code and continuously adopting modern web technologies to solve business problems.

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Next.js, Vue.js, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js, Socket.io
Database: MongoDB
Tools: Git, GitHub, GitLab, Postman, Apidog
Other: REST API Development, Payment Integrations (Razorpay, Stripe), Real-Time Systems (Socket.io), JWT Auth, 2FA, PDF Generation, API Testing

PROFESSIONAL EXPERIENCE

Full Stack Web Developer — Superix Technologies, Surat *March 2025 – April 2026*
Jewellery E-Commerce Platform |
Next.js · React.js · Node.js · Express.js · MongoDB · Razorpay

- Architected and developed the full customer-facing storefront in Next.js, delivering a responsive product browsing and purchasing experience across all screen sizes.
- Built the admin dashboard frontend in React.js for product listing, inventory control, and order management.
- Designed and developed RESTful backend APIs in Node.js and Express.js, integrated via Next.js App Router for real-time product and order data.
- Engineered a multi-variant product system supporting gold types (White, Yellow, Rose Gold), diamond sizes, and necklace sizes.
- Implemented Razorpay payment gateway for secure online transactions with a smooth checkout flow.
- Collaborated with the team to align API contracts, data models, and response structures.

Confidential Fintech Platform | *Internal Company Project (Details Confidential per Company Policy)*
Node.js · Express.js · Socket.io · MongoDB · Stripe · JWT · 2FA

- Designed and implemented a full backend API suite in Node.js and Express.js powering the mobile application — covering authentication, core transactions, and operational endpoints.
- Implemented Two-Factor Authentication (2FA) for enhanced account security across both admin and user flows.
- Built real-time live notifications using Socket.io — admin panel updates instantly on new user activity and transactions without page refresh.
- Designed a persistent notification system backed by MongoDB to store and surface alerts even when the admin panel is offline.
- Integrated Stripe payment gateway for online transactions and connected a third-party live pricing API for real-time market rates.
- Developed PDF invoice generation and automated email statement delivery for post-transaction user records.
- Built and maintained a comprehensive admin panel covering customer management, ID verification, transaction statements, and configurable platform settings.

PROJECTS

Bankai — Anime Clothing E-Commerce Website | *Personal Project*
Next.js · Node.js · Express.js · Vue.js · MongoDB · Razorpay

- Built the customer storefront with Next.js featuring product browsing, cart, wishlist, and checkout flow.
- Developed a RESTful backend API server with Node.js and Express.js for products, orders, and user management.
- Created a lightweight admin panel in Vue.js for product listing and inventory management.
- Implemented product variant system (size, color), Razorpay payment gateway, and complete order lifecycle management.

EDUCATION

Bachelor of Computer Applications (BCA) — First Class *2022 – 2025*
SDJ International College, Surat, Gujarat

Higher Secondary Certificate (HSC) — Science Stream *2020 – 2021*
T & TV Sarvajanik High School, Surat, Gujarat

CERTIFICATIONS

Full Stack Web Development (MERN Stack) — Red & White Skills Education

ADDITIONAL HIGHLIGHTS

- Delivered 2 production-level e-commerce and fintech platforms live in market within 1 year.
- Dual payment gateway expertise: Razorpay (India) and Stripe (International).
- Real-time systems experience with Socket.io for live dashboards and push notifications.
- Security implementations including JWT authentication, Two-Factor Authentication (2FA), and ID verification.
- Strong understanding of REST API design, API testing (Postman, Apidog), and Git-based workflows.
